New Account Conditions

Due on Receipt

We allow 30 days for payment, after which interest will begin to accumulate on the account. If a balance goes over 90 days, deliveries will be on hold until the balance is paid.

Commercial Rate

If you would like to request a commercial rate for your propane delivery, we will require a copy of your business number and proof that the business operates from the delivery address to be on file. This information can be emailed to marylou@tyendinagapropane.ca.

Delivery Options

Auto Delivery: Deliveries are scheduled by the delivery department based on a "Degree Day System" that takes into account cold weather temperatures and estimated consumption. We only require a call if any appliances are added/removed that can change your propane usage (i.e. range, fireplace, etc.).

Phone-In Delivery: Deliveries are monitored and requested by the customer for their own supply requirements. Please call when your gauge reads no less than 30%. Your delivery will be scheduled the week following your call. Please note that if propane is not your only source of heat, our "Degree Day System" will not be able to accurately predict your propane usage. **Customers who have an alternate heat source (i.e. woodstove, pellet stove, etc.) will be on the Phone-In Delivery method.**

Tank Rental

Tank rental is applied to the account yearly on May 1st

420 tank (up to 2 tanks in a single location)	\$65/year
334 tank	\$95/year
500 tank	\$130/year
